PROJECTS

PORTFOLIO APP

- Is built with React.js library
 - Includes a page with my profile and a page with my projects
 - Also includes a contact page
 - Design is responsive, ensuring compatibility across all devices
 - Is optimized for the best performance and usability
- GitHub Rep: <https://github.com/hayktermarkosyan/portfolio-application-v2>

POSTS APP

- Is built using the PERN stack (PostgreSQL, Express.js, React.js, and Node.js)
 - Is a full-stack web application that allows users to create and manage their own posts
 - Includes features such as user registration and authentication, CRUD operations on posts, and an intuitive user interface
 - Is an example of creating a comprehensive web application using the PERN stack
- GitHub Rep: https://github.com/hayktermarkosyan/posts_app_pern_stack

EDUCATION

BS, Engineering Technology (Radio Engineering)

MILITARY ENGINEERING UNIVERSITY, CHEREPOVETS, RUSSIA |2010 – 2015|
